

EXECUTIVE LEADERSHIP DEVELOPMENT PROGRAM (ELDP)

OVERVIEW

The Secretary of Defense directed the development of ELDP in 1985 to provide deliberate experiential leadership development opportunities for our future leaders. The mission of the program is to develop leaders who have an understanding and appreciation of the global missions of the Department of Defense, the complexities and challenges that our warfighters face in carrying out that mission, and to afford, through hands-on immersion training, opportunities for experiential learning that enhance the capabilities required to support and lead a military and civilian expeditionary workforce.

ELDP supports the Department of Defense (DoD) civilian leader development continuum at the “Lead People” level. The program equips participants with the warfighter perspective, insights, and competencies required to lead DoD in the future. ELDP combines hands-on/experiential military training to foster a deeper understanding and appreciation of the mission of the warfighter and the national security environment. The Program also provides exposure to senior military officers and civilian executives, introduces new concepts along the development continuum, and offers virtual sessions for continued learning and practical application for an unparalleled and challenging leadership training & professional development experience.

Some of the physical activities that participants may engage in are as follows:

- Running obstacle courses
- Rappelling
- Land Navigation
- Field Hike, 3-5 Miles
