**JOB SUMMARY:**

The Navy and Marine Corps team offers innovative, exciting and meaningful work linking military and civilian talents to achieve our mission and safeguard our freedoms. Department of the Navy provides competitive salaries, comprehensive benefits, and extensive professional development and training. From pipefitters to accountants, scientists to engineers, doctors to nurses- the careers and opportunities to make a difference are endless. Civilian careers-where purpose and patriotism unite!

This position is located with the Installation Services, AC/S G-6 Division, Marine Corps Base, Camp Smedley D. Butler, Okinawa, Japan (Camp Foster). As the Information Technology Specialist (Network Services), your duties and responsibilities include: the development of installation strategies and plans, prioritizing resources and providing local direction and oversight related to operations, services, system sustainment and integration of application implementation in support of operation forces, tenant commands, and associated activities aboard the installation.

**KEY REQUIREMENTS:**

Must be registered for Selective Service, see Legal & Regulatory Guidance.  
Suitable for Federal employment as determined by background investigation.  
Selectee may be required to successfully complete a probationary period.  
You must obtain and maintain a Secret security clearance.  
U.S. Citizenship required.

**DUTIES:**

Oversee critical infrastructure management and maintenance to ensure network systems and application availability. Troubleshoot information technology infrastructure technical issues to determine appropriate corrective actions. Manage operations maintenance activities (e.g. performance of system backups and data restoration) to ensure continuing availability of network systems. Monitor networking components to address problem situations and make appropriate recommendations for correction. Coordinate the integration of Information Assurance (IA) into system lifecycle design, development, and deployment to ensure that data center environmental equipment is functioning properly.

**QUALIFICATIONS REQUIRED:**

In order to qualify for this position, your resume must provide sufficient experience and/or education, knowledge, skills, and abilities, to perform the duties of the specific position for which you are being considered. Your resume is the key means we have for evaluating your skills, knowledge, and
